1650 Arch Street
Philadelphia, PA 19103

Dear Mike:

As per our conversation on 2/14/05, enclosed is a document from the year 1919 that was found recently in the archives of the Hagley Museum and Library in Delaware. It concerns an investigation of The Meadowbrook Zinc Works of the Grasselli Chemical Company in the year 1919. That was long before DuPont was involved with the site. We are reviewing this document to understand what, if any, significance the 1919 report might have.

If you have any question or concerns, please feel free to call me at 302-892-8035. We have provided a copy of this report David Hight of West Virginia Department of environmental Protection

Sincerely,

A handwritten signature in black ink, appearing to read "Sathya Yalvigi", written over the typed name.

Sathya Yalvigi
Project Director, DuPont CRG
